

Liu Haoran

Cloud Platform Engineer

Hangzhou | +86 138-0000-2003 | liu.haoran@campusmail.com

Professional Summary

- Cloud-native engineering candidate with hands-on practice in container delivery, observability and service governance.
- Interested in platform tooling that improves rollout confidence and production operability.

Education

- South China University, B.Eng. Network Engineering, 2022-2026
- Core modules: Computer Networks, Cloud Computing, Linux Systems, Service Governance

Experience

- Platform Engineering Intern, 2025. Maintained CI jobs, container deployment templates and release checklists.
- Open Source Contributor. Submitted fixes to deployment docs and service bootstrap scripts.

Projects

- Kubernetes Deployment Toolkit: packaged services with Helm and rollout verification templates.
- Cluster Monitoring Demo: integrated Prometheus metrics with alert rules and health summaries.

Skills

Go | Java | Docker | Kubernetes | Helm | Prometheus | Nginx | Shell
