

Zhao Yuning

Recommendation Algorithm Engineer

Hangzhou | +86 138-0000-2002 | zhao.yuning@campusmail.com

Professional Summary

- Algorithm candidate focused on recommendation ranking, feature engineering and experiment analysis.
- Comfortable turning coursework and competition projects into measurable prototypes with offline evaluation.

Education

- South China University, B.Eng. Software Engineering, 2022-2026
- Core modules: Machine Learning, Probability, Data Mining, Recommender Systems

Experience

- AI Lab, Research Assistant, 2025. Trained CTR/CVR baselines and analyzed recall versus precision tradeoffs.
- Data Competition Team, 2024-2025. Built candidate generation and ranking features for recommendation tasks.

Projects

- Movie Recommendation Demo: hybrid recall plus LightGBM ranking pipeline with offline metrics dashboard.
- User Interest Insight Tool: feature ETL scripts and automated experiment report generation.

Skills

Python | Pandas | Scikit-learn | XGBoost | SQL | Feature Engineering | A/B Analysis
