

Wang Chen

Java Backend Engineer

Shanghai | +86 138-0000-2001 | wang.chen@campusmail.com

Professional Summary

- Backend-focused student engineer with experience in campus SaaS systems, API orchestration and recruiter workflow tooling.
- Improved delivery speed by owning schema design, cache strategy and error handling in multi-role business flows.

Education

- South China University of Technology, B.Eng. Computer Science, 2022-2026
- GPA 3.71/4.0 | Core modules: DB Systems, Distributed Systems, OS, Software Engineering

Experience

- TalentCloud Lab, Backend Intern, 2025. Built Spring Boot services, Redis cache layers and SQL tuning tasks.
- Referral Platform MVP, Student Lead. Coordinated auth, file upload, application workflow and review dashboards.

Projects

- Campus Recruitment Portal: designed resume review APIs and role-based approval states.
- Scheduling Platform: reduced average query latency by 35 percent with indexing and cache optimization.

Skills

Java | Spring Boot | MySQL | Redis | REST API | Docker | Linux | JUnit
